

**Amendments to the Specification:**

As requested by the Examiner, applicant is submitting herewith a Substitute Specification under 37 CFR §1.125 (a) together with a hand-marked-up copy of the original specification showing the changes made to the original specification.

The undersigned affirms that the Substitute Specification only contains the changes noted in the hand-marked-up copy of the original specification and does not contain any new matter.

Entry of the Substitute Specification is respectfully requested.

Please change the Title of the invention as follows:

-- RESIN COMPOSITION FOR PURGING ~~CONTAMINANT~~ CONTAMINANTS IN  
PLASTIC PROCESSING MACHINE--

Please replace the Abstract with the following abstract. For the Examiner's convenience a copy of the amended abstract is provided herewith on a separate sheet that is attached to the Substitute Specification.

**ABSTRACT**

~~Disclosed is a~~ A resin composition for purging away ~~contaminant contaminants~~ in ~~the~~ a plastic processing machine and a ~~purging~~ method of purging contaminants from a ~~contaminant in the~~ plastic processing machine ~~using~~ that involves the use of the resin

Appl. No. 10/627,267  
Amdt. Dated September 21, 2004  
Reply to Office Action of May 21, 2004

composition. The resin composition ~~comprizes~~ includes a thermoplastic resin and borate ester of polyoxyalkylene.
